

191—4.23(17A) Applicability of Division II of Chapter 4. The insurance division may grant a waiver from a rule only if the division has jurisdiction over the rule and the requested waiver is consistent with applicable statutes, constitutional provisions, or other provisions of law. The insurance division may not waive the following categories of rules:

1. Rules setting requirements that are created or duties that are imposed by statute.
2. Rules that provide definitions or interpretations, set fees, clarify enforcement authority, deal with fraud or are the subject of prosecutorial discretion.
3. Rules that merely define the meaning of a statute or other provision of law or precedent if the commissioner does not possess delegated authority to bind the courts to any extent with its definition.
